

## Gateway

NV-GW100-NA

The core of the wireless, room-to-room network of NuVo's wireless players, the Gateway connects to a home router and uses the latest Wi-Fi protocol to reliably send music, from your home network or Internet Radio, to multiple players throughout your system.

Outside North America? Use -EU, -UK or -AU when ordering.

### features & benefits

- The Gateway allows all of your players to talk to each other, share audio content, initiate commands, and even play the same content through every zone, all in perfect sync.
- Just connect to your home router and the system automatically streams audio from the internet to your players, without any fuss or hassle.
- Using the state-of-the-art wireless protocol, 802.11n, the NuVo system can deliver faster more robust signal transmission. That means your music is constantly streaming.
- Concurrent use of both 2.4 and 5.6 Ghz bands allows the system to avoid interference. That means your music never stops or hiccups.
- Wireless "n" technology offers the most broad range signal capability, to send music throughout your entire home, and even outside areas.

### specifications

**Dimensions**

Overall Dimensions Metric: 11.25cm H x 17.7cm W x 13.3cm D

Overall Dimensions U S: 4.82" H x 6.97" W x 5.24" D

Primary Packaging Weight Metric: 0.975kg

Primary Package Weight U S: 2.15lbs

Product Weight Metric: 0.3kg

Product Weight U S: 0.65lbs

**Technical Information**

Operating Temperature Celsius: 0° C to 40° C

Power Requirements: 12V DC, 1.0A
