

Combination Devices

Providing either 2 or 3 devices in a single-gang box with decorator or traditional styling, our broad line of combination devices encompasses switches, receptacles, pilot lights and nightlights. Bathrooms, kitchens, basements and hallways are all locations that often require or can benefit from the space savings and convenience of combination devices.

- 1 Convenient patented built-in wire stripper speeds installation
- 2 Steel mounting strap is zinc-plated for added corrosion resistance
- 3 USB Receptacles allow for quick and convenient charging of most electronic components
- 4 Nightlight models feature dimmable LED lamps

Specific Combination Device Solutions for Today's Needs

Light & Motor Control
 Combination switches are horsepower rated to carry motor loads such as bathroom fans and garbage disposals on the same or separate circuits.

Shown: 7728

See pages: B-15

LED Nightlight Combinations
 Ideal for bathrooms, hallways, stairs and landings, flush-mount LED nightlight combination devices provide added safety and comfort along with switch or receptacle functionality.

Shown: TR7735

See page: B-18

USB Charging
 Perfect for quickly and easily charging most electronic components without powered computers or bulky adapters.

Features

- Light sensor turns the nightlight ON when ambient light is low, and OFF when ambient light is high
- Nightlights are dimmable to desired light level.
- Long-lasting energy efficient LED bulbs are rated for 50,000 hours lamp life
- Nightlight features full dimming as well as 3 preset levels to easily match light levels on devices mounted in series
- Nightlights use 3 LED lamps that consume a maximum of 1 watt of energy
- Convenient patented built-in wire stripper speeds installation
- Combination Nightlight/Receptacle (TR7735 & TR7736) features UL listed Tamper Resistant shutters that prevent the insertion of foreign objects
- Automatic grounding system eliminates the need for bonding jumper in grounded metal enclosure and provides redundant measure of ground continuity where a jumper is used
- Terminal screws are backed out and ready for wiring to enhance ease of installation
- Devices mounted in series can be controlled by an external switch in guide light mode
