

Epoxiglas® Cleaning Kit

Features & Applications

- Essential for care and maintenance of Epoxiglas® tools
- Also cleans insulated boom sections of aerial lift trucks
- Helps to ensure maximum life of Epoxiglas products
- Do not use on Gel-Coat or painted boom surfaces

4 Parts Of The Kit

1. **Moisture Eater II** — This cleaner should be used on contaminated Epoxiglas during general tool maintenance and in preparation for reglossing a tool's surface. Moisture Eater removes moisture and a wide variety of contaminants such as dirt, tar, grease, tree sap, light metal rubbings and old surface coatings without harming the Epoxiglas material
2. **Abrasive Cleaning Pads** — These pads are used in conjunction with Moisture Eater II to remove contamination that clings to the tool or contamination ground into scars and scuffs in the tools surface. Gloss restorer must be applied after using these pads since cleaning with Moisture Eater II will remove the glossy finish on the tool as well as contamination. The pads may also be used on metal parts to remove oxides and surface corrosion
3. **Gloss Restorer Kit** — This kit consists of two parts. When mixed and applied to the surface of a cleaned Epoxiglas tool they combine to form a clear, tough coating that replaces the original gloss and protects against contamination and moisture

4. **Hot Stick Wiping Cloths** — Silicone impregnated cloths are used to wipe down mildly contaminated Epoxiglas, removing dust and dirt, and depositing a thin protective film on the surface of the tool. They give an added measure of protection when used after recoating with gloss restorer

Moisture Eater II Cleaner-Solvent for hot-line tools, line hose and blankets

Features & Applications

- Strong solvent for water and conductive contaminants
- Safe to Earth's ozone layer – free of chlorinated hydrocarbons
- More economical, easier to work with due to lower evaporation rate
- Pleasant, orange scent from citrus-based biodegradable component

Less Waste

- Contains no water and absorbs water in its presence
- Removes twice as much water as the original Moisture Eater
- Minimizes chemical waste
- Unique formula of Moisture Eater II gives it a much lower evaporation rate than original formula and other hot-line tool cleaners

Environment-Friendly Advantages

- New formula consists of two solvents:
 - One for oils, waxes and silicone-type contamination
 - One for moisture contamination
- This combination is ideally suited for cleaning hot-line tools
- A by-product of citrus fruit, one component is biodegradable; the other component protects it from decomposing until used

Catalog No.	Description
C4002364	Moisture Eater II Cleaner, 1 gal./4.23 liters
C4002365	Epoxiglas Cleaning Kit*
The above kit consists of the following items: (Each may also be ordered separately.)	
C4002364	1 Moisture Eater II Cleaner, 1 gal./4.23 liters
C4001166	2 Abrasive Cleaning Pads (box of 20)
C4001520	3 Gloss Restorer Kit
M1904	4 Hot Stick Wiping Cloth (*2 in Kit above)

- Reformulation eliminates chlorinated solvents harmful to Earth's ozone layer
- For more technical details, refer to Material Safety Data Sheet ABC/C56

Available in 1-gallon jug as
Catalog No. C4002364
 (also comes in Epoxiglas Cleaning Kit).
