

Condulet Form 7 SnapPack conduit bodies

Pre-assembled body, gasket and cover

Applications:

Form 7 Condulets are installed in conduit systems to:

- Act as pull outlets for conductors being installed
- Provide an opening for making splices and taps in conductors
- Connect conduit sections
- Provide taps for branch conduit runs
- Make 90° bends in conduit runs
- Provide access to conductors in a conduit system for maintenance and future system changes

Features:

- All SnapPack™ product is individually bar-coded to facilitate more efficient inventory control
- Distributors and end-users need to stock a single SKU instead of three separate component numbers – order the body, cover and gasket with one catalog number, saving transaction costs, and making product selection and merchandising fast and easy
- Form 7 conduit bodies are compact with a round back design for neat, efficient installations
- Conduit hubs have tapered threads and integral bushings for protection of wire insulation
- Many shapes and trade sizes available
- Sheet steel wedge nut cover is provided with integral gasket; the wedge nut design facilitates installation and removal; nuts and screws are held captive in cover
- Cover screws are stainless steel with a combination slotted and Phillips head, for easy installation and superior corrosion protection

Certifications and compliances:

- UL standard: 514B
- CSA standard: C22.2 No. 18
- UL50E dusttight Type 12

Standard materials:

- Body – Feraloy iron alloy
- Gasket – urethane
- Cover – sheet steel
- Cover screws – stainless steel

Standard finishes:

- Feraloy – electrogalvanized with aluminum acrylic paint
- Sheet steel – electrogalvanized
