

# Commercial Network Wiring Surface Mount Boxes & Innovate™ Decorator Frames & Wall Plates

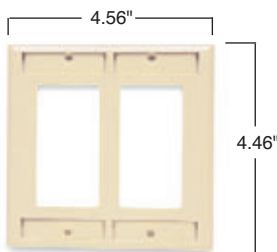

PSF326

PSF426

PS26

PS262

New 4-port frame for use with Decorator-style plates.

PSSB2-LA

PSSB6-LA

### Features

- Snap-in label holder provides easy identification for both installer and user. Helps meet TIA/EIA-606 labeling standard.
- 6-Port supports fiber-optic cabling with a built-in fiber management ring. Controls fiber cable bending radius for TIA/EIA-568-B.3 compliance.
- Mounts directly to surface – or to a single or double gang electrical box. Supports both surface mount raceway or in-wall cabling.
- Provides firm and safe surface for completing terminations. Helps ensure perfect terminations every time.
- Snap-in jack modules make configuration fast and simple. Remove jacks easily for reconfiguration or upgrades.
- Versatile cabling through base or any of three side breakouts. Provides a wide range of cabling options. Compatible with both .75" and 1.5" raceway types.
- Bring cable into box from either back breakout or base. Supports both surface mount raceway or in-wall cabling. Works with many .75" raceway styles.

Catalog Number	Description	Color	Dimensions (W x H x D)
<b>Surface Mount Boxes</b>			
PSSB2-LA	2-port box, mounts with supplied screws or two-sided tape	Lt. Almond	2.42" x 2.18" x 1.25"
PSSB4-LA	4-port box, mounts with supplied screws or two-sided tape	Lt. Almond	4.81" x 3.63" x 1.20"
PSSB6-LA	6-port box, mounts with supplied screws	Lt. Almond	7" x 4.38" x 1.20"

### Features

- Recessed labeling provides easy identification for both installer and user. Helps meet TIA/EIA-606 labeling standard. Labels and protective clear covers (both included) hide mounting screw heads for a clean, fully finished look.
- Rugged ABS construction for durability. Rated UL94 V0.
- Modular configuration complements Decorator-style wiring devices, accommodates three (single gang) or six (double gang) jack modules in any combination of jack types.
- Decorator frame adapts to pedestal, raceway, furniture, and powerpole applications for exceptional versatility.
