

3M™ SecureFit™ Protective Eyewear
Innovation through 3M™ Science of Fit™ technology

Designed to enhance
temple comfort
and **wearability**

Introducing 3M™ SecureFit™ Protective Eyewear, 400 Series – Adds New Features!

The original 3M™ SecureFit™ Protective Eyewear, 200 Series featured the proprietary self-adjusting 3M™ Pressure Diffusion Temple Technology – a scientific advancement that helps diffuse pressure over the ear, enhancing frame temple comfort while not compromising the security of fit. But the innovation doesn't stop there – Introducing **3M™ SecureFit™ Protective Eyewear, 400 Series.**

3M™ SecureFit™ Protective Eyewear, 400 Series

The power to protect your world.™

NEW 3M™ SecureFit™ Protective Eyewear, 400 Series takes comfort to the next level

The experience of putting on 3M™ SecureFit™ Protective Eyewear is game-changing. Now, the NEW 3M™ SecureFit™ Protective Eyewear, 400 Series enhances comfort and security of fit with soft adjustable nose pads and dual injected temples.

Polycarbonate lenses absorb 99.9% of UVA & UVB. Meets the requirements of ANSI Z87.1-2010.

Soft, adjustable nosepads for greater personalization

Features proprietary self-adjusting 3M™ Pressure Diffusion Temple Technology

Dual-injected, padded temple touchpoints for added comfort over the ears

Motion-inspired, contoured piping in a bold, modern color palette for an infusion of style

The 400 Series features 3M™ Pressure Diffusion Temple Technology, soft adjustable nose pads & dual-injected temples

Enhance your eye safety program with 3M™ Total Eyewear Solutions.

A comprehensive program focused on helping you keep workers protected and comfortable with a wide variety of prescription and non-prescription safety eyewear professionally fitted for your employees.

Comprehensive Program Benefits and Services

With broad industry expertise, 3M offers a comprehensive eyewear support program that can make it easier for you to manage your company's eye safety program.

On-Site Professional Optician Consultation and Fitting

For large facilities, 3M has partnered with a network of independent opticians to offer on-site fitting services to provide personalized fitting for all 3M eyewear.

The process:

- Once you have identified the potential eye and face hazards at your site, 3M sales specialists will consult with your organization to help determine the appropriate 3M protective eyewear products for those hazards.
- 3M will provide an independent optician to professionally fit 3M prescription and non-prescription eyewear that may be used to help maximize workers' safety and comfort.
- Employees have the opportunity to choose the style of eye protection they prefer from the range of options selected by your organization.

Enhancing Protection and Comfort

Appropriately fitted eyewear helps provide better protection from environmental hazards and helps reduce costly eye injuries. With 3M's Total Eyewear Solutions program, your employees will benefit from a professional optician consultation and personalized fitting services.

WARNING!

These eye or face protection products help provide limited eye and face protection. Misuse or failure to follow warning and instruction may result in serious potential injury, including blindness or death. For proper use, selection, and applications against flying particles, optical radiation and / or splash see supervisor, read *User Instructions* and warning on the package or call 3M PSD Technical Service in the USA at 1-800-243-4630. In Canada, call 1-800-267-4414.

Nation-Wide Service and Support

In addition to providing on-site optician fitting services, 3M provides off-site optician fitting for prescription eyewear through its partnership with a network of over 2,500 certified eye care professionals (ECPs) across the United States. On-site or off-site, 3M can help facilities customize protective eyewear while implementing consistent safety practices.

Comprehensive Online Reporting

3M's Total Eyewear Solutions program includes an online platform that helps you improve administrative cost control and track eligibility, access custom order forms, and make changes to eyewear options while providing accurate, detailed and timely reporting and invoicing.
