Attachments

We've re-engineered the attachments to fit both the 3/16" rods and the 5/32" rods. They will still be compatible with all existing parts in the field, and the cost remains the same.

Attachments & Accessories

FishHook - Use to retrieve or snag wire & cable.

Directional Tool - Offset bend helps guide the Fiberfish around obstructions in walls.

Magnet Head - Used with Fish Finder or to catch the ball chain inside wall cavities.

Pull Ring - Used to attach multiple wires for larger pulls.

Ball Chain - Attach to Fiberfish for interior wall pulls - can be retrieved through small access hole in wall with magnet or Flex-Fish.

Wisp Head - Use over suspended ceilings - won't catch on T-bars.

Screw Tip - Screw into the end of small communication wires for faster and easier pulls.
